Message from the Minister

It is my pleasure to present to you, on behalf of the Department of Economic Development and Tourism, the 1992 Directory of Products and Manufacturers. This publication serves both outside investors and the New Brunswick business community.

This directory includes 1,667 firms which provide, at the seasonal peak, up to 54,000 jobs for people in this province. I would like to thank each manufacturer for supplying information for this directory, and trust that it will benefit manufacturers, buyers and the public, both at home and abroad.

The Department of Economic Development and Tourism offers a number of services to the business community including industry information, marketing analysis, financial assistance programs as well as general assistance to small and medium sized business.

The department continues to make "Total Quality" a top priority. With the globalization of markets, quality is becoming the new benchmark for success. Many companies have understood the message and have taken affirmative action. I strongly urge all companies, particularly those which export products, to contact my department for more information on our Quality Assurance Program.

Denis Losier, Minister
Department of Economic
Development and Tourism

FOREWORD

HOW TO USE THE DIRECTORY

The directory consists of four major sections followed by two appendices:

SECTION 1
NEW BRUNSWICK PRODUCTS
ALPHABETICAL CLASSIFICATION

Products manufactured in the province are itemized alphabetically in this section. Every product is followed by a list of the appropriate manufacturers' names. Details with respect to the manufacturers so listed are not repeated in this section, but may be readily obtained by reference to Section 2.

SECTION 2
NEW BRUNSWICK MANUFACTURERS
ALPHABETICAL CLASSIFICATION

New Brunswick manufacturers are listed alphabetically by establishment name. The name is followed by the mailing address and then the plant location when it differs from the former. After this the contact's name, telephone, fax and telex numbers are indicated. Then the Standard Industrial Classification (SIC) is listed indicating the industry/ies assigned to the establishment, the first SIC listed being the major industry, for each firm. Following is a list of products and an employment figure.

Inquiries for a listing of firms by specific industry groups will be handled by the Department of Economic Development and Tourism upon request.

SECTION 3
NEW BRUNSWICK MANUFACTURERS
COUNTY CLASSIFICATION

The Province of New Brunswick is divided into 15 counties: Albert, Carleton, Charlotte, Gloucester, Kent, Kings, Madawaska, Northumberland, Queens, Restigouche, Saint John, Sunbury, Victoria, Westmorland and York.

In this section every county constitutes a sub-section. Municipalities where manufacturing establishments may be located are listed alphabetically within each sub-section. Manufacturing establishments located in each municipality are grouped alphabetically.

For supplementary reference, Appendix 2 contains a municipal population index and a map of New Brunswick indicating the 15 counties.

SECTION 4
NEW BRUNSWICK MANUFACTURERS
INDUSTRIAL PARKS CLASSIFICATION

The 44 industrial parks where manufacturing establishments are located are listed alphabetically in this section. The location of these parks is indicated and manufacturers located therein are listed alphabetically.

New Brunswick is a province of Canada, strategically located on the east coast of North America adjacent to some of the best markets in the world.

Traditional resource-based industries, coupled with new technologies, create a thriving environment for investors and entrepreneurs. Flourishing from a superb quality of life, our workforce is motivated and well-educated. Partners in trade benefit from an established distribution infrastructure, offering world class communications and exceptional products and services.

I. ECONOMIC DEVELOPMENT AND TOURISM MANDATE

The mission of the Department of Economic Development and Tourism is to stimulate and maintain sustainable growth in wealth and employment for the well being of the citizens of the Province.

The Department strives to provide the highest possible quality service to clients.

The Department accomplishes its mission through various programs and services.

The Trade Division helps New Brunswick manufacturers, processors and selected service industries increase sales within Canada and abroad through export promotion and new market development.

The Industrial Benefits Division seeks to maximize benefits to the New Brunswick economy of public sector procurement and construction projects. It provides information to provincial firms on major contracts and on government purchasing requirements and procedures. It also provides information to contractors on provincial suppliers of goods and services.

The Industry Services Division helps New Brunswick industry develop new products, increase productivity, keep abreast of technological changes, increase viability and adopt quality management initiatives.

The Planning Section annually surveys provincial manufactures and processors to maintain the information necessary to produce this directory and related products.

The Financial Services Division delivers the Department's direct loan, guarantee and equity programs. These include venture capital and stock savings plan assistance, and may also involve the Department taking an equity position in companies.

The Small Business Directorate provides a number of programs and services designed to support the establishment and growth of small businesses in the Province. This includes the operation of regional Economic Development and Tourism Offices staffed by project executives at the following locations:

II. REGIONAL ECONOMIC DEVELOPMENT COMMISSIONS

The Regional Economic Development Program provides for local participation in the economic development of each region of the province through the shared funding of Regional Economic Development Commissions.

The Regional Commissions provide an essential service in helping to identify and put into effect economic development opportunities within each region. Functioning as independent agencies of the participating municipalities, the Commissions are in an excellent position to locate and encourage new entrepreneurs in their regions, and to support existing firms as well as assist in the delivery of other economic assistance programs.

1992 Manufacturers and Processors Information
Information from the 1992 survey of manufacturers and processors is available in several formats besides this Directory. Please use the form on the following page to order additional products.

BUSINESS OPPORTUNITIES SOURCING SYSTEM (B.O.S.S.)

As well as compiling the information contained in this directory, the Department of Economic Development and Tourism, in cooperation with Industry, Science and Technology Canada and other provinces, is helping to further develop a national sourcing system called "Business Opportunities Sourcing System" (B.O.S.S.). The system is now operational; and is used by federal and provincial governments, trade commissioners, Chambers of Commerce, consulting firms, etc. to assist potential buyers of Canadian products in locating appropriate manufacturers and to identify market opportunities for Canadian suppliers. B.O.S.S. incorporates the latest in information technology.

New Brunswick companies currently registered in B.O.S.S. are prefixed in this directory with the symbol "† ". Expanded product descriptions and the names of company sales officials for these firms can be obtained by contacting any B.O.S.S. information centre. Such information can be obtained in Moncton from Industry, Science and Technology Canada 851-6424 or in Fredericton from the Department of Economic Development and Tourism 453-2629.
